

AMENDMENTS TO THE DRAWINGS

The attached sheets of drawings include changes to Figures 1 and 2. These sheets, which include figures 1 and 2, replace the original sheets including figures 1 and 2.

In figure 1: unclear reference numerals have been replaced by clearly legible reference numerals, the legend "Prior Art" has been added, and reference numerals 30 and 34 have been deleted. In Figure 2: unclear reference numerals have been replaced by clearly legible reference numerals, and the legend "Prior Art" has been added.

Attachments: Two Replacement Drawing Sheets

REMARKS

Initially, Applicant would like to express appreciation to the Examiner for the detailed Official Action provided, for the acknowledgment of Applicant's Claim for Priority, and for the acknowledgment of Applicant's Information Disclosure Statement by return of the Form PTO-1449.

Applicant also acknowledges the Examiner's objections to the drawings. Applicant is submitting herewith two sheets of Replacement Drawings, including the required corrections. The Examiner is thus requested to indicate that Applicant's drawings are acceptable in the next Official Action.

Applicant also acknowledges with appreciation the Examiner's indication that claims 1-3 are allowable.

Upon entry of the above amendment, the specification will have been amended. Accordingly, claims 1-3 are currently pending. Applicant respectfully requests reconsideration of the outstanding objections and allowance of claims 1-3 in the present application. Such action is respectfully requested and is now believed to be appropriate and proper.

The Examiner has objected to the drawings. Applicant respectfully submits that in view of the herein contained amendments and remarks, the objections have been overcome, and Applicant thus respectfully requests reconsideration and withdrawal of the objections to the drawings.

In particular, figures 1 and 2 have been amended so all reference numerals are clear and legible, as suggested by the Examiner. Further, figures 1 and 2 have been

P24179.A02

amended to include the legend "Prior Art", as suggested by the Examiner. Additionally, in figure 1, reference numerals 30 and 34 have been deleted, as suggested by the Examiner.

In regard to the objection to figure 2 as containing a reference numeral not mentioned in the description, it is respectfully submitted figure 2 does not contain reference numeral 28. Figure 2 contains reference numerals 48, 22, 32, one of which apparently has been misread as "28", due to some blurriness of the reference numerals in figure 2 as filed. In any event, a replacement sheet containing figure 2 has been filed herewith, in which reference numeral 28 clearly does not appear.

Accordingly, in view of the above noted amendments and remarks, it is believed that the objections to the drawings have been overcome, and Applicant respectfully requests reconsideration and withdrawal of the outstanding objections.

The Examiner has objected to the specification for minor informalities. Applicant respectfully submits that in view of the herein contained amendments and remarks, the objections have been overcome, and Applicant thus respectfully requests reconsideration and withdrawal of the objection to the specification.

In particular, on page 5, reference numeral "14" has been added and reference numeral "2" has been replaced with reference numeral "8", as suggested by the Examiner. This amendment is fully supported by the specification, including the claims and drawings, and no prohibited new matter has been added.

Accordingly, in view of the above noted amendments and remarks, it is believed that the objections to the specification have been overcome, and Applicant respectfully requests reconsideration and withdrawal of the outstanding objections.

Further, the Official Action included objections to the drawings and to the specification that required amendments which amount to more than mere formal matters. Therefore, it is believed that the Official Action under Ex Parte Quayle is improper. Thus, Applicant respectfully submits that the amendments to the drawings and to the specification should properly be entered as a matter of right.

Accordingly, Applicant respectfully requests reconsideration and withdrawal of all the objections, and an early indication of the allowance of claims 1-3.

SUMMARY AND CONCLUSION

In view of the foregoing, it is submitted that the present amendment is proper and that none of the references of record, considered alone or in any proper combination thereof, anticipate or render obvious Applicant's invention as recited in claims 1-3.

Accordingly, consideration of the present amendment, reconsideration of the outstanding Official Action, and allowance of the present amendment and all of the claims therein are respectfully requested and now believed to be appropriate.

Applicant has made a sincere effort to place the present application in condition for allowance and believes that he has now done so.
